

K2008 Barber Chair

- 1) Removable headrest with multiple positions.
- 2) Seat is 21" wide by 19" deep and 5" thick.
- 3) Reclining mechanism is power assisted (1 year warranty).
- 4) Back reclines about 45 degrees

The K2008 has a rectangular molded fiberglass base (20" by 22") covering the hydraulic pump and the rectangular steel plate. The pump capacity is 400 pounds and has a 1.185" (30mm) diameter pump shaft with a stroke distance of about 6" or 145mm. Reclining handles are on both sides of the chair top.

Keller barber chairs are designed for years of service. They have a heavy-duty steel frame where all brackets & transition points are fully welded.
